### 1. Services at Schule Schloss Salem

- Taking responsibility for others is part of the core of Salem's education. However, helping weaker people and those in need requires not only readiness but also special knowledge. Every student therefore completes, among other things, first aid training organized by the first aid service.
- With the offered services we would like to promote both the manual and technical skills of the students, as well as strengthen the handling of emotional authority such as reliability, team spirit and perseverance.
